## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-31 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record has many examples of data being split into blocks or tracks, along with a supervising control block. This data is transferred either in a pipelined fashion or serially, in a non-piped fashion. However, no art of record teaches the limitation:

**if an insufficient number of data mover TCBs are available to be associated with the remaining tracks of the block of data:**

**directing that the master TCB operate as a data mover TCB; and  
transferring the remaining tracks of the block of data to be the  
secondary controller serially in a non-piped fashion.**

Thus the conversion of a master task control block into a data moving block in order to change from a pipelined to a non-pipelined transfer was not found in the prior art.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
